Sony VAIO All-in-One Printer
IJP-V100

The Sony IJP-V100 gives you full-color and monochrome printing, faxing, copying, and scanning capabilities all in one compact desktop device. It's ideal for the small office, the home office and for personal use.

The easy-to-install IJP-V100 works with any Windows® 95 PC. With 300 x 300 dpi color output, a 150-sheet auto feeder, a 50-sheet output tray and a separate envelope slot, the IJP-V100 rivals stand-alone ink-jet printers.

Four fax modes — standard, fine, 300 dpi and photo — let you send and receive faxes at the optimal level of detail. Other fax features include a 20-page document feeder, fax memory, speed dial, auto redial, and an auto fax/telephone answering machine switch that enables the IJP-V100 to silently detect incoming faxes on a shared phone line. The IJP-V100 also features two copying resolutions — monochrome text (600 x 300 dpi) and photo grayscale (300 x 300 dpi).

With software interpolation, you can scan documents in eight-bit grayscale (256 grays) at 600 x 600 dpi resolution to capture the finest details or choose the standard optical resolution of 300 x 300 dpi.

SPECIFICATIONS

PRINTER:

Monochrome

Best mode:	600 x 600 dpi, 1 ppm
Normal mode:	600 x 300 dpi, 2.5 ppm
Economy mode:	300 x 300 dpi, 5 ppm

Color

Best mode:	300 x 300 dpi, 0.3 ppm
Normal mode:	300 x 300 dpi, 0.7 ppm
Economy mode:	300 x 300 dpi, 2 ppm
